6. CURRICULUM

We believe in developing children in a balanced way. Although we are a private school, we follow the Departments Curriculum called CAPS. Gr 00 and younger classes, follow the ELDA curriculum, which is in relation to CAPS. Parents will continually be kept informed of which themes are taught in the classrooms. Conversational Xhosa lessons throughout the year. Children will receive quarterly reports.

7. LANGUAGE

Dolfyntjie strives to be inclusive of our community and therefore teach in both Afrikaans and English. Assessments are done in the child’s preferred language, either Afrikaans or English. The Dolfyntjie staff speak Afrikaans and English in the classrooms and addresses each child in their language of choice. We teach the curriculum in both languages, for example, we would say “go and touch something red” then follow by saying “gaan raak aan iets wat rooi is.”

Classes are therefore 50/50 Afrikaans-English. It must be noted that Dolfyntjie would have to drastically downscale the school operations and resources if it had to exist with purely Afrikaans-speaking pupils, and therefore the management of the school welcomes a multi-language environment which allows us to grow our educational capabilities and offer our pupils/children the best possible pre-school education and preparation. Practical ways for parents to promote their mother tongue at home:

- Replacing English with Afrikaans media, or limiting the English media.
- Focusing on supplementing at home as well as continued repetition of Afrikaans words, terms and comprehension when English is used.
- Other activities to improve and develop language and listening skills:
 - Treasure hunt, singing of songs, drawings, Simon says, “telefoontjie”, story time, baking etc

Please note that if possible, we will invite an Audiologist as well as a Speech & Language Therapist for a session at Dolfyntjie with the parents during the first term. This is an important evening where speech and language is discussed and where parents can ask questions and interact.

26. DISCIPLINARY CODE OF CONDUCT

At Dolfyntjie, we aim to foster a nurturing, supportive environment where children can develop their social skills, self-confidence, and self-esteem. We are committed to using **positive reinforcement** as our primary strategy to encourage acceptable behaviour, recognising that children thrive when their efforts are acknowledged and celebrated. We aim to guide children towards making good choices, rather than enforcing behaviour through punishment.

When using positive reinforcement, immediacy, frequency, and consistency are crucial in helping children learn new skills and behaviours. We understand that every child is on their own developmental journey and that behavioural learning occurs best within a caring and empathetic environment.

Key Principles

- **Positive Reinforcement:** Acknowledging and reinforcing positive behaviours helps children understand what is expected of them and builds their confidence.
- **Guided Reflection:** Offering opportunities for children to reflect on their choices in a supportive manner, understanding the impact of their actions, and learning from mistakes.
- **Collaboration:** Encouraging open communication and partnership between the child, teacher, and parents to ensure a consistent approach both at school and home.

Steps in the Discipline Framework:

1. Setting Clear Expectations

- Teachers will clearly explain the school's guidelines and expectations to the children, ensuring they understand acceptable behaviours. These expectations will be presented age-appropriate and empathetic, using language that the children can understand.
- Children are encouraged to ask questions and express their feelings about these rules, fostering a sense of shared responsibility in the classroom.

2. Positive Reinforcement and Gentle Guidance

- Positive behaviours will be **immediately recognised and reinforced**, with teachers using praise, encouragement, and acknowledgement of the child's efforts.
- If a child's behaviour does not align with the expectations, teachers will first redirect the child by offering gentle reminders or suggestions on how to improve. This will be done in a supportive and caring manner, ensuring the child feels safe to learn from their mistakes.
- **Constructive alternatives** to time-out, such as offering the child a chance to take a break, engage in a calming activity, or help solve the issue, will be used to manage the situation while maintaining the child's dignity.

3. Reflecting on Behaviour

- After an instance where a child struggles with behaviour, the teacher will sit with the child to talk about what happened. The discussion will focus on helping the child understand the effects of their behaviour and exploring ways they can make better choices in the future.
- This conversation will always be held calm and caring, with the teacher acting as a guide to help the child reflect and grow.

4. Working with Parents

- If a child continues to struggle with certain behaviours despite in-class interventions, teachers will communicate with parents to share observations and **collaborate on strategies** that can be used at home and school.
- We believe in **open communication** between parents and teachers, and regular updates will be provided to ensure that everyone involved in the child's care is on the same page.
- Parents are encouraged to provide insight into the child's behaviour outside of school and work with the school to develop consistent responses and supports.

5. Supporting Children with Additional Needs

- In cases where a child's behaviour persists despite the above steps, the teacher, principal, and parents will meet to discuss a **holistic support plan** for the child. This may involve:
 - Consistent approaches between home and school.
 - Incorporating professional support, such as counselling or developmental assessments, to better understand the child's needs.
- The goal will always be to provide the child with the tools and guidance they need to succeed in a supportive environment, never to isolate or punish them.

6. Addressing Harmful Behaviours

- In rare cases where a child's behaviour poses a risk to themselves or others, teachers will take immediate, **gentle action** to ensure everyone's safety. Parents will be contacted promptly to discuss the situation.
- Rather than focusing on punishment, the school will work with parents to explore the underlying reasons for the behaviour and identify solutions that support the child's emotional and social development.

7. Ongoing Review and Adaptation

- After a period of applying the agreed-upon strategies, the child's progress will be reviewed in partnership with parents and teachers. The goal is to provide ongoing support and adapt the approach to best meet the child's needs.
- If, after a significant amount of time, there is no change in the child's behaviour, the principal will meet with the parents to discuss the next steps, which may include continued support at school, adjustments at home, or further professional assistance.

8. Temporary Removal for Restorative Support

- In circumstances where a child's behaviour continues to be a concern despite the consistent application of all the above strategies, we may request that parents temporarily remove their child from Dolfyntjie. This step allows time for reflection and to work closely with parents and professionals to develop a supportive and effective plan for the child's return to school.
- During this time, we will collaborate with the family to provide guidance and resources that support the child's well-being and development. We always aim to welcome the child back to Dolfyntjie with a plan that ensures they feel supported, understood, and set up for success in their learning environment.

To conclude, Dolfyntjie is a Christian school where our focus is on raising followers of Jesus. We strive to uplift the community and create a family-like environment at Dolfyntjie. This is the first phase of our children's school journey and to set the foundation, we as parents need to lead by example.

Many of the parents who have children attending Dolfyntjie, were once pupils here themselves! Your children will become friends for life and so it is important to be part of the Dolfyntjie family. That's why it is so important to get to know the fellow parents and get involved wherever you can.

We look forward to welcome your child at our school. We trust that your child will enjoy an educational time at our school and that they will form part of our big happy family.
